

Article Galaxy For Libraries

# Get It Now Is Sunsetting

Here's how to keep your document delivery running smoothly as you plan your transition before the June 30 deadline.

## KEY DEADLINE

**June 30, 2026**

*Get It Now* officially sunsets. Libraries using it for unmediated patron access, staff-mediated ordering, or ILL system integrations need a replacement in place before that date.

## TRANSITION CHECKLIST

### Work Through Each Step

- Map Your Current Workflow**  
Patron-facing, staff-mediated, or ILL-integrated?
- Update Request Routing & Links**  
Identify all *Get It Now* links in Alma, OCLC, or your resolver.
- Ensure System Compatibility**  
Does the new service integrate cleanly with your existing ILL systems?
- Set Account-Level Controls To Manage Spend**  
Cap per-article costs to keep spend predictable.
- Prepare Staff For Any Workflow Changes**  
A new interface requires new muscle memory. Allow time for adjustment.

## WHY RESEARCH SOLUTIONS

### Built For How Academic Libraries Actually Work

#### Works With Existing Systems

ILLiad, Rapid, IDS, Rapido, and other ILL platforms

#### Supports Both Workflow Types

Staff-mediated ordering and patron-facing access

#### Handles Hard-To-Source Materials

Standard digital requests plus print-only and difficult-to-source content

#### Broad Content Coverage

Access across a wide range of publishers

#### Transparent Pricing

Costs shown in the ordering workflow; set account-level caps for budget control

#### Per-Article, No Annual License

Available on a per-article basis with no ongoing commitment

### One Important Distinction:

Patron-facing (unmediated) access typically requires a licensed platform, while staff-mediated workflows can run through a standard per-article document delivery account. Understanding which model you use helps guide the right setup.

## Ready to make the switch before June 30?

Contact a Research Solutions rep to set up your account. There is no license fee and no minimum commitment.
