

Auto PDF Delivery

Research teams lose an average of 40% of their time to manual article sourcing, time that should be spent on analysis, not acquisition. Auto PDF Delivery turns your existing subscription investments into an automated content pipeline.

When researchers request articles through Article Galaxy, the system automatically verifies access through your organization's subscriptions and token packages, retrieves the PDF via intelligent proxy sourcing, and **delivers it instantly to the browser**.

This systematic approach eliminates workflow bottlenecks while ensuring you capture maximum value from every subscription dollar. **Smart fallback protection** automatically manages any publisher access issues, guaranteeing PDFs are **delivered through your lowest-cost source**, prioritizing subscriptions over tokens to prevent inadvertent per-article purchases.

The result: researchers get immediate access to the content they need with **PDFs automatically stored in their Article Galaxy library**, your organization reduces per-article acquisition costs through intelligent source hierarchy, and your existing publisher relationships work harder for your bottom line.

The Automation Advantage

Core Functionality

- Automated PDF retrieval via dedicated proxy infrastructure
- Built into the Article Galaxy ordering workflow
- Quick download delivery directly in browser
- Subscription and token package optimization
- Cross-publisher compatibility management
- Smart fallback protection

Business Impact

- Maximizes ROI on existing subscription investments
- Reduces cost-per-acquisition through automation
- Eliminates research workflow bottlenecks
- Ensures lowest-cost sourcing hierarchy
- Scales document supply without headcount
- Decreases administrative overhead for research teams

Key Benefits

Cost Efficiency

Maximizes existing subscription ROI while reducing per-article acquisition costs through intelligent automation

Operational Scale

Handles growing research demands without proportional increase in manual processing overhead

User Experience

Removes research friction with instant PDF access, improving researcher productivity & satisfaction

Strategic Control

Reduces dependence on unpredictable per-article purchasing by systematically leveraging existing publisher contracts, providing budget predictability & strengthening negotiating position for future renewals

✓

AUTO PDF

How It Works

>

Step 1

User Requests Article

End user searches and requests PDF from Article Galaxy interface.

>

Step 2

Automated Sourcing

Subscription Check:
System verifies access via organization's subscription through dedicated IP proxy

OR

Token Usage:
System checks token balance and automatically uses token for PDF acquisition

>

Step 3

Instant Delivery

PDF appears in browser for immediate download and use, and is automatically stored in your Article Galaxy PDF Library.
