

Article Galaxy References

Designed to Scale with Your Business

Article Galaxy References, included with every Article Galaxy Premium plan, connects your reference library directly to Article Galaxy's document delivery engine and Company PDF Library. Order an article and it arrives organized, with metadata, supplementary materials, and re-use rights attached. Administrative controls keep security, privacy, and compliance managed at the organization level, from small teams to global enterprises.

Built-In Organization

- Keep your articles organized and easy to access by dragging and dropping one or more articles directly into individual or multiple folders from your search or existing library.
- Integrate various document types into your references, including DOC, XLS, PPT, PNG/JPG, MP3/MP4, and more, enriching your references with diverse data and multimedia.
- Create and apply your own Custom Tags to organize references at any stage of your workflow.
- Apply admin-managed PDF Library Tags for consistent, organization-wide labeling of the literature you order through Article Galaxy.
- Deploy Company Shared Folders organization-wide for improved file management.
- Add single articles or drag and drop multiple files via RIS format to keep your library structured and accessible.
- Identify duplicates in your PDF library automatically during file imports, ensuring efficient management of resources.
- Store, manage, and download your requested supplementary materials with ease as they flow into Article Galaxy References automatically.
- Update all citation metadata in a folder with one click, ensuring up-to-date and accurate

information without manual retrieval.

- Extract and track key information using Custom Fields, applying them universally across all users and folders in your account, to expedite research and facilitate peer collaboration.
- Export ordered materials, metadata and/or PDFs, in popular Reference Manager formats: RIS, BibTeX, Excel, XML, CSV, and RTF.

User Experience & Access Control

- Safeguard your research environment with tailored access permissions and settings, ensuring only authorized team members have access.
- Access your papers anytime, anywhere, from any device with our cloud-based platform, ensuring continuous research productivity.
- Work in an interface designed and rigorously tested for usability and viewing experience.
- Display article details directly in search results to aid in quicker information retrieval and decision-making for researchers.
- Draw on our partner ecosystem to run systematic literature reviews with powerful integrations.

Alerting & Notifications

- Receive timely alerts via email whenever a colleague adds new items to Personally Shared Folders and/or Company Shared Folders, and control the frequency of summary emails.
- Identify new items added to a Shared Folder or Company Shared Folder at a glance with Visual Indicators for quick recognition.

- Benefit from more intuitive search behavior, including our Search Query Builder, for more efficient discovery of your organization's literature collection.
- Consolidate critical content and stay informed on the latest literature updates with our integrated RSS Feed Reader.

Secure Collaboration

- Centralize your procured content as every document ordered through Article Galaxy is automatically added to your Company PDF Library.
- Organize your research efficiently by creating unlimited folders and subfolders for both personal and collaborative use.
- Optimize collaboration and productivity across your organization with the ability to create, manage, and share folders with User Groups.
- Save valuable time and maximize workflow efficiency by bulk exporting PDFs from owned folders.

Advanced Discovery & Metrics

- Discover insights with Scite's Smart Citations badges, showing how each reference supports, mentions, or contrasts a claim, with full-text excerpts of the citing passage so you can read the evidence in context.
- Read AI-generated article summaries, powered by Scite, to assess relevance before you order.
- Surface related work through recommendations grounded in how papers have been received, not a generic related-articles list.
- Verify article re-use permissions and confirm copyright compliance with a single click, with built-in rights information via the Re-Use Rights interface.

Search & Discovery

- Sync your entire library, including book chapters, patents, conference reports, and more.
- Get the lowest acquisition cost through direct integration with Article Galaxy's article ordering system.
- Search within and across all folders from one centralized interface that shows results and citation locations.

Cite & Write

- Enable the Microsoft Word Add-In for both Mac and PC for efficient document creation and editing.
- Choose from over 10,000 citation styles to confirm precision and conformity in academic and professional publications across diverse research methodologies and disciplines.

Article Galaxy References pairs one-click access to scientific literature with unlimited storage and organization, so your library grows as fast as your research does.
