# How To Access Bibliogo

Literature Management

Your reference management workflow is about to get a whole lot better! With **Bibliogo** — your all-in-one solution for enterprise level literature management — you can seamlessly search, acquire, organize, share and manage content. Available as an Article Galaxy Add-On, Bibliogo includes robust PDF library management, integrated literature search, table-of-contents, RSS and ATOM feeds from multiple publications and database, and native integration to Article Galaxy for lowest-cost acquisition filtering and on-demand document delivery.

Available Through your Article Galaxy Account

1. Log on to your Article Galaxy Account at **www.reprintsdesk.com** or via your company's SSO.

2. Click on Bibliogo under the Quick Links Viewer section of your dashboard.
